منتدى المكتبات يناقش أخلاقيات الذكاء الاصطناعي

❖ الدوحة - الشرق

سلط منتدى المكتبات في الصدارة 2024 الذي تنظمه مكتبة قطر الوطنية للعام الثالث، الضوء على الذكاء الاصطناعي ودور المكتبات في ضمان العدالة والإنصاف في الوصول للمعلومات والمصادر وتعزيز الوعي الرقمي لدى الأفراد وتمكين المجتمعات.

أقيم المنتدى بالتعاون مع المؤتمر والمعرض السنوي السابع والعشرين لجمعية المكتبات المتخصصة - فرع الخليج العربي وبدأ بورشة عمل قبل المؤتمر في 4 مارس بعنوان « تعزيز الكفاءة الرقمية في عصر الذكاء الاصطناعي: إتقان المهارات والاستراتيجيات الأساسية لأخصائيي المكتبات».

وأقيمت جلسة خاصة لمنتدى المكتبات في الصدارة 2024 في اليوم الثاني للمؤتمر والمعرض السنوي السابع والعشرين لجمعية المكتبات المتخصصة - فرع الخليج تحت شعار «نحو مكتبات متقدمة تقنيًا ومتميزة رقميًا»، وركزت على الدور المهم وغير التقليدي للمكتبات في المحافظة على التراث وقيادة ركب الحداثة والتطور ومواكبة متطلبات العصر الرقمي، وأبرزت تأثير الذكاء الاصطناعي على ممارسات المكتبات.

وقال سعادة الدكتور حمد بن عبد العزيز الكواري، وزير الدولة ورئيس مكتبة قطر الوطنية، خلال افتتاح المؤتمر والمعرض السابع والعشرين لجمعية المكتبات المتخصصة - فرع الخليج: سعداء بالتعاون مع جمعية المكتبات المتخصصة - فرع الخليج العربي في تنظيم هذا الحدث المهم، وهو تعاون يعكس القواسم المشتركة في الأهداف والتطلعات والاهتمامات بين مؤسستينا ويجسد التزامنا المشترك بتطوير مجال المكتبات والمعلومات، والارتقاء بكفاءة العاملين فيه ومهاراتهم، وتعزيز مواكبتهم لمستجدات ثورة تكنولوجيا الذكاء الاصطناعي التي نشهدها ولا غنى عن استثمارها والاستفادة منها.

وشارك في الجلسة الخاصة للمنتدى نخبة من الخبراء والمتخصصين وهم السيدة هوسم نان، المدير التنفيذي لمكتبة قطر الوطنية، والدكتور أشرف عثمان رئيس قسم البحوث والابتكار في مركز مدى للتكنولوجيا المساعدة - قطر، ود. سوزان كرامانيان، عميد كلية القانون بجامعة حمد بن خليفة، والسيد روبرت لوز، اخصائي مكتبات في البيانات والإعلام والويب بجامعة جورجتاون في قطر.

وأكدت السيدة عبير الكواري، مدير شؤون البحوث وخدمات التعلم بالمكتبة، أن موضوع منتدى هذا العام يحمل أهمية خاصة لمكتبة قطر الوطنية، لأنه يتسق مع رسالتها الساعية إلى تسهيل الوصول إلى المعلومات، والتعلم واكتساب المعرفة والمهارات.

QNL forum examines ethics, implications of AI in libraries

Qatar National Library (QNL) hosted the Libraries Lead Forum 2024, with the latest edition focusing on AI and the role of libraries in ensuring equitable access to information in the digital age. The event, organised in collaboration with the 27th Annual Conference and Exhibition of the Special Libraries Association – Arabian Gulf Chapter (SLA-AGC), featured a pre-conference workshop followed by a special session.

Titled 'Unlocking Digital Competence in the Age of AI: Mastering Essential Skills and Strategies for Librarians', the workshop touched on digital and artificial intelligence competence as a prerequisite skill for librarians in an ever-evolving information landscape.

The workshop equipped library professionals with the essential knowledge and digital skills to better serve communities in the information age. The session, on March 6, highlighted the important role that libraries play as innovative and technologically advanced institutions responsible for not only preserving traditional values but also ensuring equitable access to information and cutting-edge resources and services.

The session on the second day of the conference was inaugurated by HE Dr Hamad bin Abdulaziz al-Kawari, Minister of State and President of QNL. "Our co-operation reflects our shared goals and embodies our joint commitment to the development of libraries and industry professionals, equipping librarians with the skills to leverage artificial intelligence and technological innovations," al-Kawari said. "Oil is a limited resource that will be eventually depleted. This is why Gulf countries share the vision of investing in alternative energy and diversifying our sources of income as we transition to knowledge-based economies."

Held under the theme "Libraries' Roadmap to Digital Dexterity and Proficiency", the special session featured a lineup of high-profile speakers who discussed the contribution of libraries to fostering digitally literate and empowered communities. The session brought together Tan Huism, executive director of QNL, Dr Achraf Othman, head of ICT Accessibility Research and Innovation at Mada Centre, Dr Susan Karamanian, dean of the College of Law at Hamad Bin Khalifa University, and Robert Laws, Data, Media, and Web Librarian at Georgetown University in Qatar. Tan explained that libraries have adapted over time to the changing format of the information carrier but access to knowledge remains at the core of their mission. "Whether it is the move from parchment to paper, the technological breakthrough of the printing press or bytes in the digital world, information is after all at the heart of our business," she said.

HE Dr Hamad bin Abdulaziz al-Kawari opens the forum.

Abeer al-Kuwari, director of research and learning services, QNL, added : "The Libraries Lead Forum 2024 builds on our years-long efforts to advance the goals of equitable learning and unrestricted access to information, as evidenced by our unwavering commitment to the UN Sustainable Development Goals and the promotion of cultural exchange."

THE PENINSULA

DOHA: For the third consecutive year, Qatar National Library has hosted the Libraries Lead Forum 2024, with the latest edition focusing on AI and the role of libraries in ensuring equitable access to information in the digital age.

The event, which was organized in collaboration with the 27th Annual Conference and Exhibition of the Special Libraries Association - Arabian Gulf Chapter (SLA-AGC), featured a pre-conference workshop followed by a special session held within the framework of the SLA-AGC conference.

Titled "Unlocking Digital Competence in the Age of AI: Mastering Essential Skills and Strategies for Librarians", the workshop touched on digital and artificial intelligence competence as a prerequisite skill for librarians in an ever-evolving information landscape.

The workshop, which was held on 4 March at the Library, equipped library professionals with the essential knowledge and digital skills to better serve communities in the information age.

The special session, on 6 March, highlighted the important role that libraries play as innovative and technologically advanced institutions responsible for not only preserving traditional values but also ensuring equitable access to information and cutting-edge resources and services.

The session was held on the second day of the SLA-AGC conference, which was inaugurated by H E Dr. Hamad bin Abdulaziz Al Kawari, Minister of State and President of Qatar National Library.

Dr. Hamad said the Library was pleased to cooperate with the (SLA-AGC) in organizing this important event.

"Our cooperation reflects our shared goals and embodies our joint commitment to the development of libraries and industry professionals, equipping librarians with the skills to leverage artificial intelligence and technological innovations," he said. "Oil is a limited resource that will be eventually depleted. This is why Gulf countries share the vision of investing in alternative energy and diversifying our sources of income as we transition to knowledge-based economies. National, public and private libraries play a key role in advancing these objectives, consolidating this trend and materializing our efforts."

Held under the theme "Libraries' Roadmap to Digital Dexterity and Proficiency", the special session featured a lineup of high-profile speakers who discussed the contribution of libraries to fostering digitally literate and empowered communities.

The session brought together Tan Huism, Executive Director of Qatar National Library, Dr. Achraf Othman, Head of ICT Accessibility Research and Innovation at MADA Center, Dr. Susan Karamanian, Dean of the College of Law at Hamad Bin Khalifa University, and Robert Laws, Data, Media, and Web Librarian at Georgetown University in Qatar.

Tan explained that libraries have adapted over time to the changing format of the information carrier but access to knowledge remains at the core of their mission. "Whether it is the move from parchment to paper, the technological breakthrough of the printing press or bytes in the digital world, information is after all at the heart of our business," she said.

Minister of State and President of Qatar National LibraryH E Dr. Hamad bin Abdulaziz Al Kawari and other officials during the opening the the 27th Annual Conference and Exhibition of the Special Libraries Association - Arabian Gulf Chapter.

"Thus, Libraries should be leveraging the responsible use of AI to advance their mission, increase accessibility to their collections, and enhance digital literacy offerings to the public."

"The basic foundation for AI systems is data," she added, "and national libraries as custodians of the country's documentary heritage, hold large holdings of materials that can potentially be converted to data to be used in research to enhance the understanding of the country".

Abeer Al Kuwari, the Library's Director of Research and Learning Services, said the theme of this year's forum held special significance for Qatar National Library, as it aligns with its mission to facilitate access to information and learning.
